Antimicrobial Agents and Chemotherapy, an interdisciplinary publication of the American Society for Microbiology (ASM), 1325 Massachusetts Ave., N.W., Washington, DC 20005-4171, is devoted to the dissemination of knowledge relating to all aspects of antimicrobial, antiparasitic, and anticancer agents and chemotherapy. Instructions to authors are published in the January issue each year; reprints are available from the editors and the Journals Division. Antimicrobial Agents and Chemotherapy is published monthly, one volume per year. The nonmember subscription prices are $25.00 (U.S.), $28.00 (Canada), and $29.00 (other countries); air drop shipping per year; single copies are $42.80 (Canada) and $40 (U.S. and other countries). The member subscription prices are $49 (U.S.), $52 (Canada), and $54 (other countries; air drop shipping); single copies are $10.70 (Canada) and $10 (U.S. and other countries). Correspondence relating to subscriptions, defective copies, missing issues, and availability of back issues should be directed to the Subscriptions Department. ASM copyright is given complying with the use sections 107 and 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.

Second-class postage paid at Washington, DC 20005, and at additional mailing offices.

POSTMASTER: Send address changes to Antimicrobial Agents and Chemotherapy, ASM, 1325 Massachusetts Ave., N.W., Washington, DC 20005-4171.

1992 Hoechst-Roussel Award: Eligibility and Nominations

Nominations for the 1992 Hoechst-Roussel award, under the sponsorship of Hoechst-Roussel Pharmaceuticals, are invited by the Awards Committee and the Interscience Conference on Antimicrobial Agents and Chemotherapy (ICAAC) Committee. Scientists from all parts of the world are eligible to receive the Hoechst-Roussel award.

The deadline for nominations for the award to be presented at the 1992 ICAAC is 1 April 1992.

Purpose. The Hoechst-Roussel Award will be made annually to a person engaged actively in research in antimicrobial chemotherapy. The award is made for the purpose of stimulating research in this field. Appropriate research may be either basic work in developing new agents, investigating antimicrobial action or resistance to antimicrobial agents, or research relating to the pharmacology, toxicology, or clinical use of those agents.

Eligibility. There shall be no age limit or professional requirement for the award. The sole requirement of candidacy shall be outstanding accomplishment in research or development in the areas appropriate to the award.

Award. The Hoechst-Roussel Award consists of a cash award of $20,000 and a commemorative medal. The recipient and spouse/guest will be reimbursed for travel expenses to the presentation ceremonies at the Interscience Conference on Antimicrobial Agents and Chemotherapy. At this meeting, the recipient will be expected to present a special lecture on the research for which the award is made. In addition, the awardee and spouse/guest will be invited to Hoechst in Frankfurt and Roussel in Paris to deliver his or her lecture to an audience at these parent companies.

Award process. The recipient of the Hoechst-Roussel Award shall be selected by an Award Committee of five persons.

Nominations. Nominations may be submitted by members of the American Society for Microbiology or the Infectious Diseases Society of America. Nominations must be received by the American Society for Microbiology by 1 April of the year in which the award is to be made. No person shall submit more than one nomination. Nominations shall be accompanied by (i) a nomination cover sheet, (ii) a letter of nomination, which includes a specific description of the research on which the nomination is based (iii) a current CV, (iv) not more than three reprints of work most relevant to nomination, (v) at least five and no more than seven supporting letters, desirable from persons in the field not closely associated with the nominee.

Submission procedures. All materials in support of a nomination for the 1992 award must be assembled and copied before submission. Submit six copies by 1 April 1992 to the Awards Committee, American Academy of Microbiology, 1325 Massachusetts Avenue, N.W., Washington, DC 20005.
