

Acknowledgment of *Ad Hoc* Reviewers

Louis B. Rice, Editor in Chief, *Antimicrobial Agents and Chemotherapy*

Warren Alpert Medical School of Brown University, Providence, Rhode Island, USA

In order to guarantee thoughtful and timely reviews of the more than 2,000 manuscripts we receive per year, we engage the services of a large number of *ad hoc* referees, who contribute their time and expertise to making AAC an increasingly important and influential journal. We are deeply grateful to the many *ad hoc* reviewers who have evaluated manuscripts for AAC in the past year.
